CHECK THE CORRECT STATEMENTS

Directions: Please check the statements below that are true about reducing, reusing and recycling materials.

It is important to reduce, reuse and recycle to help save landfill space.

Most materials sent to the landfill could have been reduced, reused or recycled.

When recyclables are sorted and collected separately they are eventually made into new products.

Using a reusable water bottle and reusable lunch bag save landfill space.

It is important to only put recyclable items in recycling containers.

Should these items be "Recycled" or "Landfilled"?

Directions: Please circle "R" for Recycle or "L" for Landfill below each item.
