

Request for Qualifications to Provide Gas Collection & Control Design Services

Posted: September 17, 2026

This Addendum No. 1 shall be considered part of the Request for Qualifications (RFQ) to Provide Gas Collection & Control (GCCS) Design Services and is intended to correct, change, and/or add to the documents as described below. Please make sure to complete the *Addenda Acknowledgement* form included in the *Required Forms* (Exhibit B).

Listed below are questions received with answers from SWACO:

Question #1: *If multiple consultants are selected, what process will SWACO use to distribute and award task orders? Will all selected consultants be invited to provide quotes for each task order, or will assignments be made through another method such as rotation, specialty expertise, or direct assignment?*

Answer: Refer to Sections II.A and II.B, pages 1–2. SWACO may issue task-order requests to one or more Successful Proposers. Task orders will be awarded based on several factors, including, but not limited to, submitted quotes or proposals, proposed completion timelines, and specialized expertise.

Question #2: *Can SWACO provide additional information regarding the typical task orders anticipated under this contract, including the types of projects, approximate engineering budgets, or anticipated annual workload?*

Answer: Refer to Exhibit A, page 13, for potential services and Section II.A, page 1, regarding task orders of varying size, scope, and duration. Exhibit C, Section 1.2, contract page 1, states that SWACO is not required to request a minimum amount of services. Engineering budgets/annual workload can vary.

Question #3: *Exhibit A includes "Perform Construction Quality Assurance" as a potential service. Can SWACO provide additional information regarding the anticipated CQA scope, including whether full-time onsite CQA is expected during construction or if periodic inspection and observation services are anticipated? Additionally, are surveying services anticipated as part of the CQA scope?*

Answer: Refer to Exhibit A, "B. Scope of Services," item H, page 13. SWACO may require CQA services for GCCS construction projects under this contract, including a full-time onsite CQA technician. Specific requirements will be identified in the applicable task order. Surveying services are not typically included in the scope of this contract..

Question #4: *Exhibit A includes "Yearly build-out modeling and design" as a potential service. Can SWACO provide additional information regarding the anticipated scope of this task? Is the intent to develop GCCS expansion and phasing plans based on SWACO-provided fill plans, or will the consultant also be expected to prepare solid waste phasing plans and/or landfill development planning?*

Answer: Refer to Exhibit A, "B. Scope of Services," item C, page 13. This contract is primarily for GCCS build-out modeling and design. Specific requirements will be identified in the applicable task order.

The deadline for questions relating to this RFQ is 4:00 p.m., September 25, 2026
SOQs are due no later than 1:30 p.m., October 2, 2026
